

# U9itus

*The virtual town hall*

---

Where politicians pay to speak and voters earn to listen

Ecosystem flow – Full vision (Sprints 0-5)

March 2026

# The problem we're solving

Voters are disenfranchised because the process of researching candidates is cumbersome, boring, and inaccessible.

## TV & radio ads are ignored

Politicians spend millions on mass media. Voters skip, mute, or tune out. No verified engagement.

## Town halls are inaccessible

Scheduled at 5pm on a Tuesday. Low attendance. The people who need to hear the most can't make it.

## Research tools are unusable

Vote Smart, Open Secrets, Ballotpedia — all require you to already know who you're looking for.

## No incentive to engage

Voters donate their time to a process that feels rigged. There's no reward for being informed.

# Our solution: the virtual town hall

A one-stop civic hub where politicians pay per view and voters earn to engage.

## Video-first discovery

Short, authentic intro videos — not produced ads. Browse candidates in your district by address.

## Transparency built in

One click to see who funds them, how they voted, and what they stand for. Data from FEC, Vote Smart, Open Secrets.

## Paid engagement

Voters earn \$0.50 per verified view. Every dollar from a politician goes to a real constituent who actually watched.

# Get on the platform

## Politician journey

### P1 Create account

LIVE

Name, office, governance level, district. Pending admin approval.

### P2 Load credits via Stripe

LIVE

Top up balance. Post-fee amount shown transparently. Held in escrow until views occur.

## Voter journey

### V1 Enter address

NEW

Type your address. Instantly see your district and every candidate running in it.

### V2 Browse candidates

NEW

See all politicians in your district — no login required. Photos, office, party, district.

# The town hall

## Politician

### P3 Upload intro video

LIVE

30s max. Real, authentic. "Hi, I'm running for X because Y." This is the handshake.

### P4 Answer Q&A videos

NEW

Pre-set questions voters care about: guns, education, housing. Each is a separate paid view.

### P5 Target district

LIVE

Geographic targeting by ZIP and governance level. Videos only shown to voters who can vote for you.

## Voter

### V3 Sign up to earn

LIVE

Email + ZIP. Now you can watch and earn. You already know what's here from browsing.

### V4 Watch intro → earn \$0.50

LIVE

Watch 10+ seconds. \$0.50 instantly credited. One-to-one — every view counts.

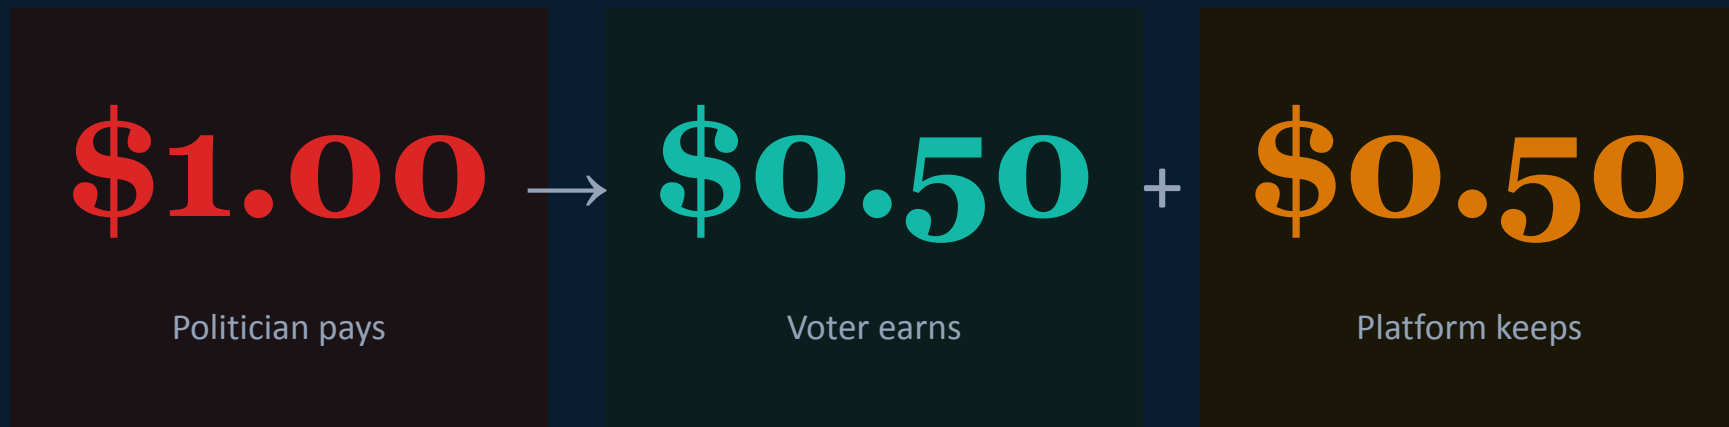

### V5 Watch Q&A → earn more

NEW

Browse by topic in your district. Watch answers, earn per view. This is the town hall.

# How money moves

Per verified view — simultaneous debit and credit

No impressions. No CPM. Every dollar goes to a real person who actually watched. Verified by 10-second heartbeat, one-time secure token, 24-hour expiry.

# Dig deeper — transparency layer

What makes U9itus different from every other political platform: voters can verify what politicians claim.

## FEC

Campaign finance — donations received, money spent, donor lists

## Vote Smart

Voting history, issue positions, interest group ratings

## Open Secrets

Donor and lobbyist information — who's really funding this candidate

## Ballotpedia

Electoral history, biographical data, past races and results

*"He can't dance. He's got to come clean."* — John Head, March 11

# Grow the ecosystem

## Politician growth loop

### P8 Get real feedback

See survey results from your district. What do voters actually care about?

### P9 Create more content

Answer more questions. The more you engage, the more voters see you.

## Voter growth loop

### V8 Take surveys → earn

"What frustrates you about voting?" Compensated micro-surveys.

### V9 Refer friends → earn

10% commission on every view your referrals complete.

### V10 Cash out at \$5

Request payout via PayPal or CashApp. Real money for being informed.

# Why this works

## For voters

One place to learn everything real about your candidates — who funds them, what they stand for — and get paid to engage.

## For politicians

Every dollar goes to a real constituent who actually watched your message. No wasted impressions. Direct, verified engagement.

## The problem it solves

Researching candidates is cumbersome, boring, and inaccessible. Nobody does it. TV ads are ignored. Town halls are at 5pm on a Tuesday.

## What makes it different

No other platform combines video-first introductions, public accountability data, paid engagement, and district-level targeting in one place.

*Unite the politician and the voter.*
